New tools to promote and learn about young refugees' intra-european mobility

The Moveurope! initiative started over 4 years ago, and it is under this framework that the

Moveurope Erasmus + project, funded by the EU, is currently being implemented. It aims to promote and facilitate young refugees' access to mobility programs through a strengthened youth work framework.

8 European partner organisations work together to create new tools such as a **Mobility Guide** about the legal framework, mobility opportunities and useful information on the visa procedures, and a **Toolkit** to facilitate the teaching and learning of this information through non-formal education methods and online and offline training concepts.

Which tools will you be evaluating?

Fun, informative and engaging ways of learning about the mobility opportunities, rights and visa procedures in the EU. These are the non formal education tools created by the consortium working on this Erasmus+ project.

These tools will be tested in every partner country with youth workers, young refugees and other youngs and professionals interested in the topic. Afterwards in Brussels, these and other project's results will be presented in a final event where you will be invited, and all these results will be made available for free and accessible for everyone.

We need your opinion to finalise them, to create useful and engaging tools that make a real impact! Your feedback is key for the project to publish their final and public version.

CONEXX-EU is in charge of the organisation of the events in Brussels, in representation of the whole consortium of the Moveurope Erasmus+ project.
